# INTRODUCTION

The Sacramento Directory Co., publisher of the Sacramento Directory, presents to subscribers and the general public, this, the 1929 edition of the Sacramento City Directory.

Confidence in the growth of Sacramento's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Sacramento to the world.

The enviable place occupied by these directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Sacramento Directory will fulfill its mission as a source of authentic information pertaining to the city.

### POPULATION

The estimated population of Sacramento is 110,723, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

### MAJOR DEPARTMENTS

THE BUYERS' GUIDE, pages 13 to 56, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Sacramento. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers keen to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Sacramento, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 57 to 645.

DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE covers pages 649 to 852. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 853 to 962. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

### MUNICIPAL PUBLICITY

The directory reflects the achievements and ambitions of the city. depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Sacramento, for business men everywhere, realize that the city directory represents a community as it really is.

### THE SACRAMENTO DIRECTORY LIBRARY

Through the courtesy of the publishers of the Sacramento City Directory, a Directory Library is maintained in the offices at 423 J Street, for free reference by the general public. This library is one of the system of more than 400, installed and operated in the chief cities of the U. S. and Canada, under the supervision of the Association of North American Directory Publishers, of which The Sacramento Directory Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

SACRAMENTO, the "Heart of California" and capital city of the state, is located at the confluence of the Sacramento and American rivers, in the center of the greatest agricultural, mineral and timber producing area of California. With a background of history closely entwined with some of the great epochal events in the civilization and development of the Pacific Coast, Sacramento through her years of civic and commercial progress, has maintained leadership among the cities of the West. It is now the largest interior city in California and one of the most rapidly growing cities in America.

The close of the year 1928 marked a seven-year period of development not matched by any previous twenty-year period in the history of the city. This was due to the splendid development of the Sacramento Valley and mountain counties, to the growth of Sacramento as a commercial and manufacturing center, and to the program of municipal improvements undertaken by the citizens themselves through the municipal government. Under the business-like regime of the City Manager-Council form of government, which has been in force since June 30, 1921, more than $80,000,000 was expended in building permits, bond funds, municipal budgets and allied activities. Building permits have averaged nearly $9,000,000 per year for seven years.

Sacramento has graduated from the class of the ordinary capital city to a thrifty metropolis of approximately 112,500.

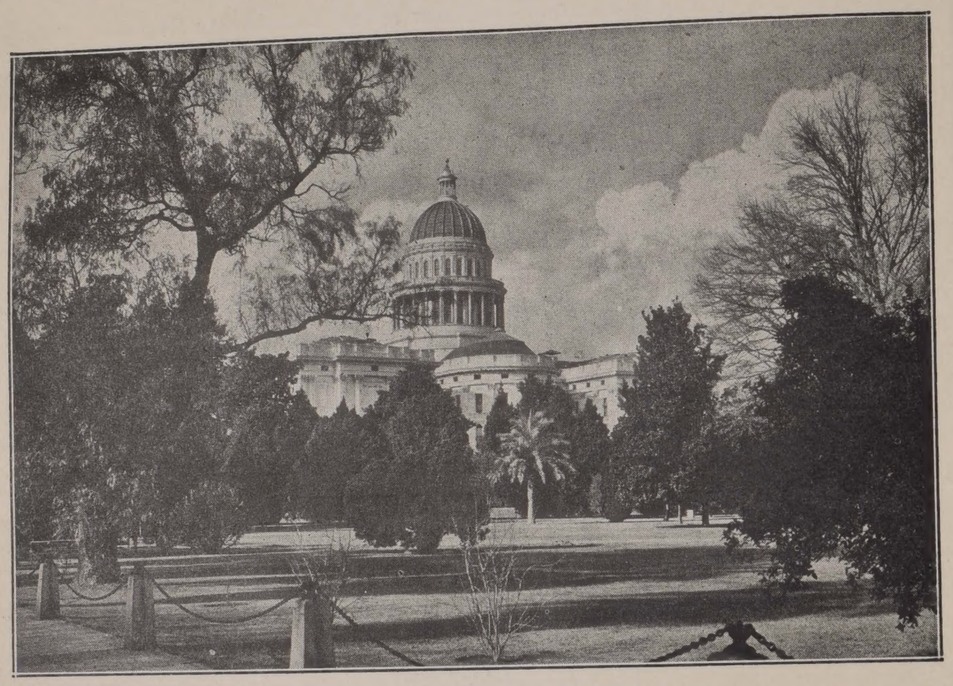
The westward movement of population has found Sacramento one of the beautiful cities of the Golden State, a comfortable and prosperous community in which to live.

The city is built on a level plain with an incorporated area of fourteen square miles. The climate is semi-tropical, with an average mean annual temperature of sixty degrees, and an annual average rainfall of 18.28 inches (U. S. Weather Bureau 50-year record).

Sacramento's most notable beauty is in its wide tree-lined streets and its 1219 acres of municipal parks. No city in the West equals this city in number of street trees, cared for and protected by the city government.

Sacramento is the home of the annual California State Fair, the largest and most successful exposition of its kind in the United States.

Notable among the historic points of interest are Sutter's Fort, now entirely restored to its original form, and maintained as a state museum, housing a priceless exhibit of relics of pioneer days Crocker Art Gallery, one of the largest and most valuable art collections in the West; and the $8,000,000 group of Capitol buildings,



STATE CAPITOL BUILDING

surrounded by a 40-acre state park world-famed for its beauty and the more than one thousand varieties of trees, shrubs and flowers gathered from every country on the globe.

Sacramento's school system is recognized as one of the best in a state noted for its educational progress, with a $1,500,000 high school and a $600,000 Junior College typical of its outstanding excellence. On the Junior College Campus was erected last year a splendid stadium, costing $175,000 and seating 25,000.

The beauty of its residential sections, modern public and business buildings, beautiful churches and splendid hospitals add to its attractiveness as a home city.

Sacramento's recently completed million dollar Memorial Auditorium, splendid hotel and restaurant accommodations and its metropolitan theatres have made it an outstanding convention center, exceeded in numbers of state and national convention gatherings only by Los Angeles and San Francisco.

Most remarkable of any feature of its development has been Sacramento's industrial growth. More than five hundred industrial plants furnish employment for approximately one-fifth of the city's population.

The Southern Pacific Shops in Sacramento are the second largest in the world, employing regularly 4000 men. The company has a total of 5134 employees in Sacramento, with an annual payroll of $7,292,503. The Western Pacific, with its main shops here, employs more than 600, with an annual payroll of nearly $1,000,000.

The principal industry is that of canning fresh fruits and vegetables, Sacramento's four canneries being the largest in California and two of them the largest institutions of their kind in the world. The twenty canneries in Sacramento County produce annually 18% of the total output of the 209 canneries in California. The recently completed plant of the American Can Company is the largest and most modern of the can factories operated by that national concern, emphasizing Sacramento's position as the canning center of the state.

Sacramento has the only almond shelling plant in the world, and more than fifty per cent of the state's total almond output is handled here.

Flour and feed mills, slaughtering and meat packing houses, rice and bean cleaners, clay, pipe and pottery works, lumber and box factories and similar institutions convert into manufactured products other raw material provided by the vast agricultural, timber and mineral wealth of the region.

The region of which Sacramento is the metropolis and trading center—the twenty-one counties of Northern California—east of the Coast Range—produces 35% of California's total agricultural yield; 75% of its precious and structural mineral products; and has 9,000,000 of the 14,000,000 acres of virgin timber still standing.

The sale value of the raw products of farm, mine and mill in this region in 1928 was

Sacramento is the banking center of interior California, served by eleven strong banking institutions, whose combined clearings average $450,000,000 annually, and whose total deposits exceed $100,000,000.

## HISTORY

Historically, Sacramento is associated with three great epochal events in California's development.

The settlement established August 12, 1839, by Capt. John A. Sutter at Sutter's Fort, now Sacramento, was the first settlement of white men in interior California, and marked the beginning of agricultural development that has made California third among the states of the Union in total value of its agricultural products.

The discovery of gold January 24, 1848, by James W. Marshall, one of Sutter's men, at Coloma, sixty miles east of the city, brought about the great gold rush of '49 and '50, which so quickly populated the state that it was admitted to full-fledged statehood September 9, 1850.

The transcontinental railroad started from Sacramento in 1863 and completed in 1869 (the old Central Pacific, now Southern Pacific), was the first to link the West to the East with bands of steel, and from the viewpoint of lasting benefits, overshadows even Marshall's discovery.

Sacramento was incorporated in 1849 and chosen as Capital of California in 1854.

## FASTEST GROWING COUNTY

Sacramento is County Seat of the fastest growing farm county in California, according to the Federal Farm Census.

The census of 1910 gave Sacramento County 1601 individual farms. In 1920 the number had grown to 2975 and in 1925 to 3921. This was an increase of 144% for the 15-year period, 1910-25. The 1930 census will note this rate of increase continuing.

With the increase in number has come a corresponding decrease in average size. Great grain farms have yielded to subdivision and intensive cultivation in more profitable crops. The average in 1910 was 295.5 acres, in 1925, 114 acres per farm. The average value in 1910 was $71.09 per acre. In 1925 it was $179.73. Total value of all farms and buildings in the county in 1910 was $33,630,820, in 1925, $80,399,382—an increase of 138%.

## UNEQUALLED DIVERSIFICATION

Sacramento County, according to County Horticultural Commissioner A. E. Morrison, is the most diversified in its products of any county in California. This remarkable diversification is what makes for stable and year round prosperity.

Sacramento County produces, successfully and in large quantities, more than twenty varieties of fruits and nuts, and every known American vegetable. Some crop is in harvest every month of the year.

Coupled with rich soil, ample water and intensive farming methods, this diversity places Sacramento County in a place of conspicuous leadership among the high producing counties of California.

Sacramento County tops the list in several of the highly developed specialty crops:

ASPARAGUS—Nearly half of the world's supply—
CELERY—One-quarter California's total crop—
PEARS—Leads all other counties in the state—
SPINACH—One-fifth California's total crop—
TOMATOES—One-third the state total.

Sacramento County is the third largest poultry producing center in California. It offers ideal conditions for dairying and live-stock production.

Land prices, available markets and ideal conditions assure success to the man who knows how and will farm right.

## THE SACRAMENTO CHAMBER OF COMMERCE

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**NOTICE TO ATTORNEYS**

Our research department will make a State search and furnish an affidavit, recognized and accepted by the Courts of California, on missing defendants, etc.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association, is the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED**

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

# THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledged itself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

# Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is **passive** while the buyer is **active.** On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

# SACRAMENTO STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS 1929

COPYRIGHT, 1929, BY SACRAMENTO DIRECTORY CO.

In the following list the streets are arranged in alphabetical order. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. To find occupation of householders, refer to Alphabetical List of Names. Numerical streets follow the alphabetical streets.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

**YOUR CITY DIRECTORY IS STANDARDIZED**

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California, shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

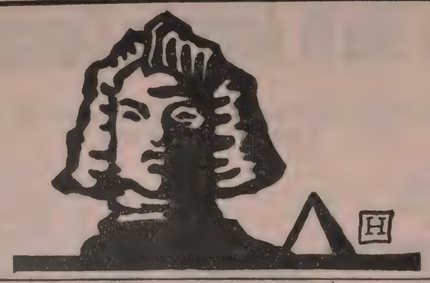
Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**All members of this association have subscribed to the following**

**STANDARDS OF PRACTICE**

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising. to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

**$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.



# TRADE! You like

to patronize those concerns who are in business to stay.

**It's human to expect that such business establishments always stand back of the wares they sell.**

**The advertising in this Directory is suggestive of the stability and permanency of the advertisers.**

**Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.**

**The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.**

**If you are not advertising your business in the Directory, may we explain how and why it will pay you?**

## A THUMB NAIL SKETCH OF NORTH SACRAMENTO

(By North Sacramento Chamber of Commerce)

SUBDIVIDED out of original Rancho Del Paso, or Haggin Grant, in 1910, and incorporated in 1924, North Sacramento has grown from a grain field to a town of over 3500 in sixteen years.

The contiguous territory comprising the areas known as Hagginwood, Woodlake, Rio Linda, and Robla support a population in excess of 10,000.

Since incorporation approximately $300,000 has been expended in street improvement alone and this includes Del Paso Boulevard, 100 feet wide, traversing the central portion of the town. A modern, sanitary sewer system has been completed, connecting with every part of the town.

The North Sacramento School District comprises modern, well-equipped schools, being attended by more than one thousand children.

The spiritual needs of the community are cared for by four churches: Methodist, Nazarene, Roman Catholic and Bethel-Lutheran. The social life is represented by the Woman's Club, Rotary and Exchange Clubs, and the Masons. The North Sacramento Chamber of Commerce is, of course, representative of all, and has been the moving force behind all improvements and developments since before the incorporation of the town. It is equipped to supply complete and reliable information on all matters relating to the entire district.

One of the outstanding advantages of North Sacramento is its water supply. Pumped from deep wells it has shown a continuous record for purity surpassed only by the purest of high mountain springs.

Located between the converging lines of the Western Pacific and Southern Pacific and traversed by the Sacramento Northern Railroad,

North Sacramento offers the manufacturer the best sites for industrial enterprise in Northern California.

North Sacramento local traffic is served by the Sacramento Northern Railroad and the North Sacramento Stage Line which latter operates a schedule of forty round trips daily to and from Sacramento.

The volunteer fire department has twenty-five men under call.

North Sacramento is seven minutes from the center of Sacramento over a broad concrete highway, and is three miles from Del Paso Park, the 800-acre public park of the City of Sacramento, containing one of the finest municipal golf courses in California.

It has a newspaper of general circulation and the homeseeker will find modern well-stocked stores to satisfy every demand, and including a branch of one of the largest banking institutions in the City of Sacramento.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization.' By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.
